General Consent for Dental Treatment

Endless Smiles Dental Group - Darleen Oleski D.M.D.

I understand the purpose of this general consent is to raise my awareness of the risks that are common-place in many dental procedures.

I understand that every dental patient has the right to informed consent. That means that as a patient or as a legal guardian for a patient I should understand what treatment is being proposed, what the possible complications and risks are, and what the alternatives are to the treatment. One alternative for me is to do nothing, which carries its own risks.

My signature below confirms that I understand that no dental treatment is completely risk free, and that my dentist will take reasonable steps to limit any complications of my treatment and provide competent dentistry with comfort and care.

I understand that some after-treatment effects and complications tend to occur with regularity. For routine fillings, dental cleanings, prescription of medications, I understand this includes but is not limited to: temporary soreness, temperature sensitivity, unusual reaction/allergy to medications given or prescribed. Medications have common side effects that are listed by the manufacturer. Further, if I am taking other medications, medications prescribed or used in the dental office could have an adverse interaction, and I need to fully disclose all of my medications to the dentist and pharmacist. This includes over the counter medications and herbal supplements.

I understand that for many treatments and procedures I will be given a local anesthetic injection and that in a certain percentage of cases patients have had an allergic reaction to the anesthetic, or temporary or permanent injury to nerve and/or blood vessels from the injection. I understand the injection area(s) may be uncomfortable following treatment and that my jaw may be stiff and sore from holding my mouth open during treatment.

I have the right to ask the doctor or hygienist for more information if I have any concerns about my procedures and the possible side effects or complications. I promise to use that right to its fullest intent if for any reason I feel I am not fully informed about my procedure, the risk of the procedures, and my alternative to the procedure.

Office Financial Policy

Payment is due at the time services are rendered. For your convenience we accept cash, Visa, Master Card, Discover, local personal checks, money order, or registered check.

Insurance benefits are determined by your employer and not by your dentist. Insurance is not a guarantee of payment; insurance companies will not pay for all your costs. Your insurance policy is a contract between you and your insurer. Your insurance and payment are still your responsibility. As a courtesy we will be glad to file your claim for you if you bring your dental insurance card and all required employer information. You will be expected to pay for services rendered if the office is unable to verify your insurance information before treatment. **If payment for services already rendered has not been paid in full within 45 days, either by you or your insurance company, the remaining balance for treatment is considered due and collectible from you.**

We reserve the right to charge and collect for broken appointments - appointments that are cancelled or broken with less than 48 hours advanced notice or no notice at all. Appointments are reserved exclusively for you. As a health benefit for you, we may offer to move your appointment to an earlier time if openings arise.

In the event of a returned check, a fee of \$50 will be added to your account balance.

Payment plans and financial arrangements can be entered into for comprehensive dental treatment, prior to commencing treatment.

I have read and understand this financial policy.
